Lethbridge One Solar Power Project – Project Update

As a key stakeholder and neighbour to our Lethbridge One Solar Power Project (the “Project”) we are writing to inform you about the latest updates and developments for the Project. We understand that our Project's success is interconnected with the well-being and support of the local community, and we are committed to maintaining a transparent and open line of communication with all interested parties.

Lethbridge One is to be located on approximately 80 acres of privately owned agricultural land, south of Highway 3, west of Westside Drive, north of 2nd Avenue West and east of 30th Street West, municipal address 2910 Westside Drive W Lethbridge Alberta (SW 10-9-22-W4M).

The Project began construction in November 2023 with site preparation underway. Major construction activities are slated to begin in December 2023, with construction expected to wrap up in October 2024. We are thrilled with the progress made already this year.

We are very proud of this first project for NU-E Corp in Alberta and are confident it will contribute positively to the community in the years to come.

If you have any questions or concerns regarding the Project, please do not hesitate to contact us at 647-869-1322 or via email at aj@nu-ecorp.com.

Sincerely,

A handwritten signature in black ink that reads 'AJ Kiani'.
